

LX CONNECT

The new IIoT platform for LACROIX devices

LX CONNECT

IIoT PLATFORM ensuring the **complete management** of **LACROIX** telemetry devices

Easy & secure
management of
SOFREL S4 RTU fleet

ALWAYS UP-TO-DATE

LX CONNECT monitors the security validity of all certificates used by the SOFREL S4 RTU in the field every day and automatically renews any certificates that are close to expiry.

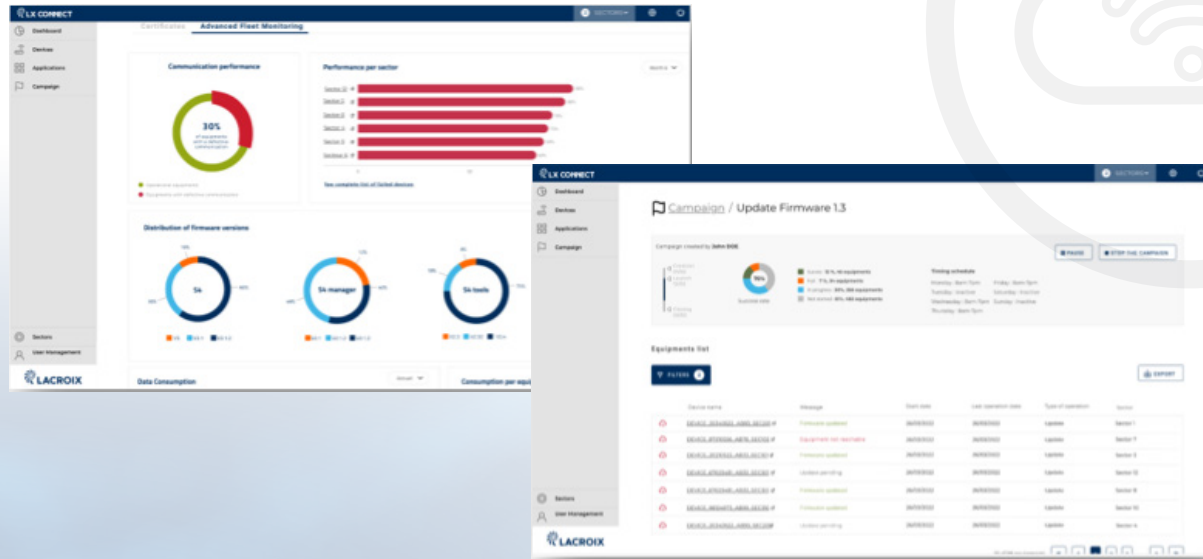

CENTRALISED FLEET MANAGEMENT

With its dashboards, **LX CONNECT** provides a perfect view of the hardware and software characteristics of each equipment installed in the fleet. Additionally, a **campaign module** allows for scheduling bulk software updates and corrective versions.

- Automatic renewal of certificates for the SOFREL S4 remote management fleet
- Advanced management of the remote management fleet
 - ▶ 360° view of the deployed fleet
 - ▶ Campaign module for bulk update scheduling

EDGE-TO-CLOUD IIOT PLATFORM

Accelerating the IT/OT convergence

LX CONNECT BENEFITS

- Automated and continuously monitored cybersecurity
- Facilitated fleet updates
- Control and management of software versions deployed in the fleet

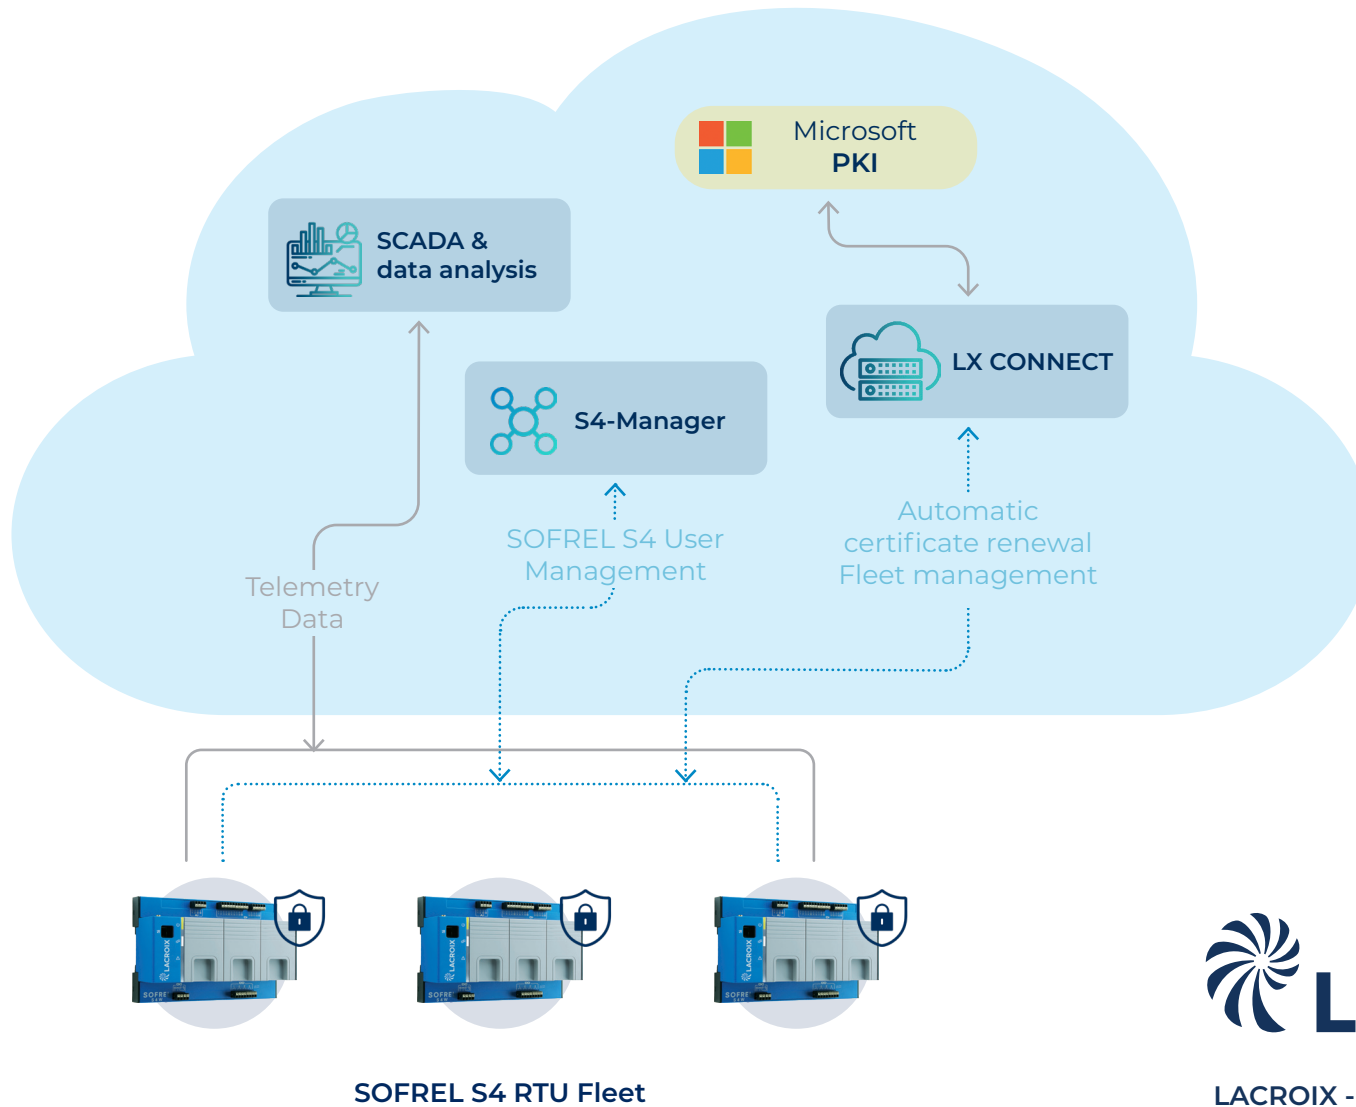

Choose local or cloud-based deployment

LX CONNECT EDGE is deployed on a virtual machine that can be hosted on a local server. This ensures the platform is as close to the water infrastructure network as possible.

LX CONNECT PREM is a cloud-based solution which can be easily deployed in a private cloud or data center. Full compatibility with AWS and Azure guaranteed! Fully scalable for unlimited RTUs.
